

Baby Marlene off CPAP

Baby Marlene was born in October 2023 at only 23 weeks gestation. She was admitted to NICU after being transferred from a regional hospital.

Carer Liz has walked alongside Marlene's mother for 6 months through the ups and downs. She is now able to breathe on her own and the CPAP has been removed, a wonderful milestone!

We pray this little one and her family experience great health and many blessings in their future.

April 2024

April 2024 has seen some welcome additions to The Mooring team! We have created a new volunteer role, The Mooring Property Coordinator, which Debbie Hartz has been appointed to. We also welcome Belinda Peach as The Mooring Cooks Coordinator.

This month we have launched our fundraiser for 2024! Every donation enables care for families. The Mooring relies on donations to operate and we are so grateful for all of our donors. All donations over \$2 are tax deductible.
